Product Discontinuance Notification—PDN# 0000455348

Nov. 01, 2026

Dear Valued Customer,

We would like to inform you that the **UC-8410A Series** will reach its End of Life (EoL) phase, starting **April 30, 2027**.

If you need any of these products for an existing project, please contact your Moxa sales representative to place orders before the last-buy date of **April 30, 2027**. Also, please note that last-buy orders may be subject to availability.

The End of Service (EoS) date for MIL 1 (Moxa Industrial Linux), which is pre-installed on these UC Series products, is December 2027. Following this date, software support services for MIL 1, including technical assistance, software updates, and security patches, will no longer be available. Please note that the EoS date applies only to MIL 1 software and does not affect the hardware warranty or repair services. Hardware warranty, repair, and replacement services remain subject to the standard warranty policy for these products. Please review the details below to determine how these discontinuances will affect your products and/or operations.

	Last-buy date	Last shipment date	MIL1 End of Service
UC-8410A Series	April 30, 2027	September 30, 2027	December, 2027

As cyberthreats continue to evolve, so must your defenses. To safeguard your business, our recommended replacement—the UC-8600A—is built to deliver futureproof cybersecurity resilience. Fully compliant with IEC 62443-4-2 SL2 standards, the UC-8600A offers the high-level security your operations demand. Upgrade today to keep your infrastructure secure, resilient, and ahead of modern threats.

In addition, our computing performance has been upgraded significantly. Powered by a 64-bit Armv8 Cortex A7 dual-core 1.5GHz processor and 4GB DDR4 memory, this next-generation architecture transitions your system from 32-bit to 64-bit computing. This jump delivers enhanced processing speed, superior efficiency, and seamless multitasking, ensuring maximum system responsiveness and long-term operational reliability for your mission-critical IPC applications.

Please review the details below to determine how these discontinuances will affect your products and/or operations.

Applicable differences in specifications

In this table, we list the differences in specifications between the EoL products and the recommended replacement products.

Specification	UC-8410A Series (EoL)	UC-8600A Series (Replacement)
Supported OS	MIL1	MIL4 (Debian 13)
CPU	Cortex A7 dual-core 1 GHz	Cortex A72 dual-core 1.5 GHz
DRAM	DDR3L 1GB	LPDDR4 4GB
Storage	8 GB	32GB; 64 GB (2027 available)
Ethernet Ports	3	4
USB Ports	USB2.0 x 2 Type-A	USB3.0 x 2 Type-A
Storage Slots	1x SD socket 1x mSATA	M.2 M key (2242)
Expansion Slots	mPCIe slots x 1 (for LTE)	UC-8620A/UC-8630A: mPCIe slots x 1 (for LTE) UC-8630A: M.2 E-key sockets x 1 (for Wi-Fi)
SIM Slots	1	2 (Nano)
Serial Ports	RS-232/422/485 ports x 8 (software-selectable, RJ45 connector)	RS-232/422/485 ports x 8 (software-selectable, terminal-block connector)
DIO	DI x4 / DO x4	DI x4 / DO x4
CAN Ports	/	CAN 2.0 A/B x 2 (3-pin terminal block)
TPM	/	TPM 2.0

Please note that all service rules (e.g., warranty) still apply to the EoL products.

If you have any questions, please contact your regional sales representative.
