

Firmware for CCG-1500 Series Release Notes

| | |
|-----------------------------------|------------------------|
| Version: v1.4.0 | Build: 25052703 |
| Release Date: Jul 04, 2025 | |

Applicable Products

CCG-1510-T, CCG-1510-TW-T, CCG-1510-US-T, CCG-1520-T

Supported Operating Systems

N/A

New Features

- Added support for the Auto Export function to DiagPartner.
- Added support for the Ping function.
- Added support for the Packet Capture function.
- Added support for the Event Log function.
- Added support for the Account function.
- Added support for the DoS Settings function.

Enhancements

- Users can now configure MTU size settings.
- Added a LAN status display.
- Users can now configure reboot settings
- Added support for additional LwM2M objects.
- Added support for IP Passthrough with auto-configured MAC.
- Added additional 5G Mode options: NSA and SA Auto Mode
- Improved the display of the DHCP list.

Bugs Fixed

- The Keep-alive mechanism behaves inconsistently in the web interface.
- The web interface becomes unresponsive after adding a firewall entry.
- The DHCP server could incorrectly assign an IP address to a client that is outside the specified DHCP IP range.
- The gateway fails to automatically re-establish its connection to the DLM server after a disconnection.

Changes

- Removed the GPS Map function.
- Renamed “Event Log” to “System Log”. A new, separate Event Log function was added.
- Renamed “Configuration Backup” to “Reset Button”. The configuration backup function is now integrated as an option in the Reset Button settings page.

Notes

- When logging in to the CCG-1500 Series for the first time, you will be prompted to change the default password. This step is mandatory in order to access the device and configure settings.

| | |
|-----------------------------------|-------------------|
| Version: v1.2.2 | Build: N/A |
| Release Date: Jun 28, 2024 | |

Applicable Products

N/A

Supported Operating Systems

Windows

New Features

N/A

Enhancements

- Added support for global SA bands (for CCG-1510-T models only).

Bugs Fixed

N/A

Changes

N/A

Notes

- The CCG-1500 Series device must be upgraded to firmware v1.0.6 first before installing v1.2.2. Upgrading from an older version will cause the device to become inaccessible and unable to be restored.
