

Product Change Notification—PCN# PCN001216

August 13, 2026

Dear Valued Customer,

We would like to inform you that Moxa is going to make changes to multiple products series. These will be implemented as running changes from September 01, 2026. Please review the details below to determine how these changes will affect your products and/or operations. The affected products are as follows:

DE-FX02-SFP, DE-PRP-HSR-EF, DA-GX02-SFP-T, DA-PRP-HSR-I210, DN-FX04, DN-PRP-HSR-I210

What will change?

Due to the current international situation, plating lead times have been extended. As a result, the material for the SFP cage used in the listed products will be changed. To reduce the supply risk, the original copper material of the SFP cage will be replaced with copper-nickel alloy. There will be some minor changes in the appearance. These changes will not affect the dimensions, form, function, or reliability of the products.

Appearance of the SFP cage.

Current Version	New Version
	

Which products will be affected?

Product Name	Current HW Revision	New HW Revision
